## Summary for the testing of the solutions with Netcompany & Intrasoft

### Introduction

The following is the external summary from the testing of the Customs solution with Netcompany & Intrasoft

The dialogue with the market were conducted in order for Implementation Center for Danish Customs (ICT), under the Danish Ministry of Tax, to obtain further knowledge regarding available solutions on the market. Focus for the dialogue were to test solutions based on standard functionality which can fulfill part of the Danish customs agency's needs.

The dialogue with the market is not intended to pre-select or pre-exclude market operators in future tenders and thus will not qualify or exclude any market operators from future tenders. Focus for the dialogue has been to discuss products on the market and the functionality of these.

Summary for the testing of the solutions with Netcompany & Intrasoft	
<b>Market operator</b>	Netcompany & Intrasoft
<b>Date for meeting</b>	22-11-2017
