Summary for the testing of the solutions with DXC, European Dynamics & BDO

Introduction

The following is the external summary from the testing of the Customs solution with DXC, European Dynamics and BDO.

The dialogue with the market were conducted in order for Implementation Center for Danish Customs (ICT), under the Danish Ministry of Tax, to obtain further knowledge regarding available solutions on the market. Focus for the dialogue were to test solutions based on standard functionality which can fulfill part of the Danish customs agency's needs.

The dialogue with the market is not intended to pre-select or pre-exclude market operators in future tenders and thus will not qualify or exclude any market operators from future tenders. Focus for the dialogue has been to discuss products on the market and the functionality of these.

Summary for the testing of the solutions with DXC, European Dynamics and BDO	
Market operator	DXC, European Dynamics, BDO
Date for meeting	10-11-2017
Welcome and presentation of the market operator's participants	The market operator welcomed Implementation Center for Customs on behalf of DXC, European Dynamics and BDO and presented the participants from the market operator. Afterwards their current participation in ongoing customs projects and the Danish tax organization were briefly explained.
Formal framework for trying of the solutions	Implementation Center for Customs presented the agenda for the day and the guidelines for how ICT wished to conduct the meeting. Furthermore, the legal framework for the test-day was presented. ICT informed the market operator that an external summary would be available at the Ministry's webpage after the range of meetings were conducted to secure fair and equal treatment of potential market operators
Session 0: The market operators experience and suggestions on slicing and sizing their solution	The market operator explained their experience with similar projects, from ongoing and closed projects. Additionally, their customs experience was explained. The market operator furthermore described their take on how to best slice and size their solution based on their previous experiences with their product.
Session 1: Testing of the process – practical test of predetermined process	First the market operator gave a short introduction to what would be included in the demonstration and explained the technology their solution is based on. Then the market operator displayed and explained how a working declaration management process would look and function in their solution based on the scenario provided by ICT as a prerequisite for the meeting. Focus were both on explaining how the process functioned in their system and how data flowed.
